WARNING

Always read this manual before using

- Read through manual before shooting,paying special attention for safe operation.
- Throughly understand the warnings and cautions for safe operation.

CAUTION

- Always observe warnings and cautions strictly.
- Failing to do so may cause injury,accidents,or damage to the gun.

Always use precision BB Bullets for this airgun. Never use any used BB bullets.

Do not look directly into the gun barrel to avoid accidental discharge of BB.

Never aim or shoot at people or animals as the target. Always set the selector on safe position except when you are ready to shoot a target.

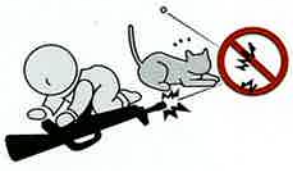

Never hold the gun sideways as the BB bullets will curve right or left.This is due to the HOP-UP system.

DO not brandish in public,do not alter the coloration and warnings -such an action is dangerous and may be a crime.

Select a safe place for operating the air gun,avoiding places where people and cars pass across or third persons are around.

Always remove the any remaining BBs and the battery before storage.Store the airsoft gun in a case or bag out the reach of children to avoid accidents.

Disassembling or modifying the gun may generate danger or adversely affect the performance.

There may still be BBs left in the airsoft gun even though the shell cartridge has been removed. Pulling the trigger carelessly is extremely dangerous. After removing the shell cartridge,direct the muzzle towards a safe direction and pull the trigger to confirm that no BBs remain in the airsoft gun.

RIFLE COMPONENTS

①Flash Hider ②Silencer Connector ③Barrel ④Picatinny Rail ⑤Safety

⑥ Magazine ⑦ Magazine Release ⑧ Bolt ⑨ Trigger ⑩ Grip

⑪ Foldable Stock Release Button ⑫ Cheek Rest ⑬ Butt Stock

Two Allen keys are included in the pistol grip

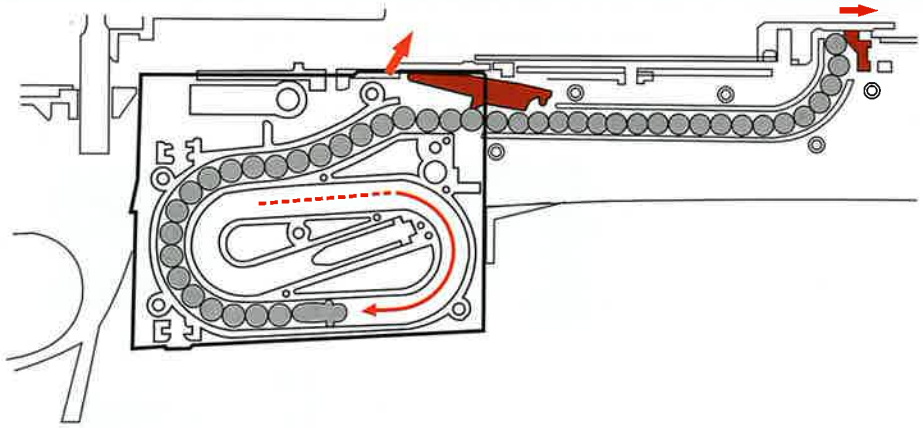

LOADING MAGAZINE

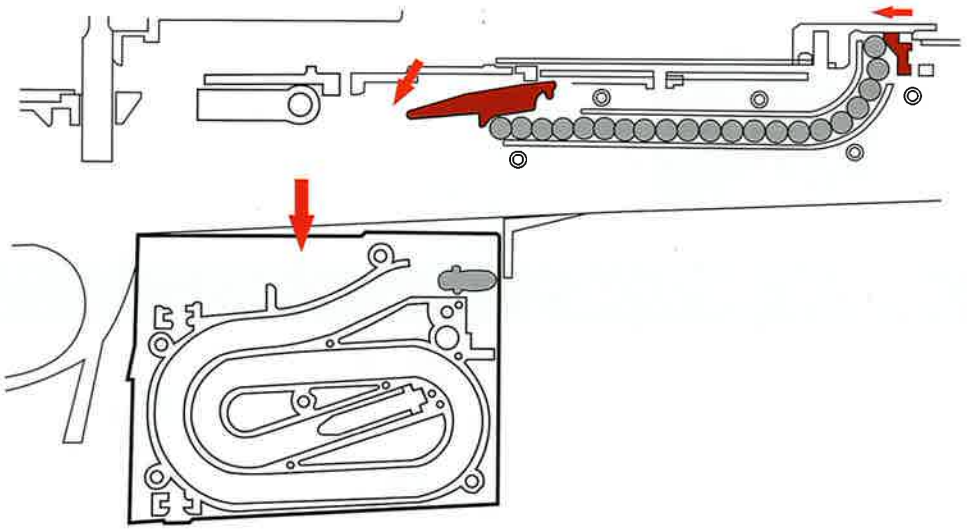

- Warning: Remove all BBs in feeding tube after use.

Magazine (50rds)

● Note: The rifle will not discharge all 50rds when the feeding tube is empty because 21 rounds remains in the feeding tube.

● Press Stopper to empty feeding tube.

MAINTENANCE

● **Maintenance when you are shooting but the BBs is came out slowly.**

①Spray a cleaning patch with Lubricant oil with the cleaning patch on rod(rod may not be included with your sirsoft gun),insert it into barrel to clean.

②To complete the cleaning,use the cleaning rod(with cotton)as shown below.To remove excess oil.

Wind the cotton cloth around the cleaning rod.

Hold at the leading end of the rod and insert the rod into the barrel while turning the rod.

Warning!

Always carry out maintenance AFTER returning the hop up lever to the Normal position.(Hop-OFF)

Inserting the rod will be difficult if you hold rod in the far end.

● **Removing clogged bullets**

Remove the magazine and return the hop up adjustment to the Normal position.
Insert the cleaning rod from the load edge into the barrel,make sure that the angled part of the cleaning rod faces down,and remove clogged bullets.

● **Normal Maintenance**

Keep the rifle in clean condition. **Regularly clean the barrel with soft cleaning rod.**
Nerer used dirty,damaged or distorted bullets.
